

PPE for Ebola Virus Disease

DONNING PROCEDURE

The donning and doffing of PPE should be observed by a trained team member – [PPE buddy]

1

Gather all necessary PPE beforehand

- Hospital Scrubs are to be worn under PPE
- PPE is available in the isolation anteroom
- Wear closed puncture & fluid resistant shoes

2

Don disposable fluid resistant shoe covers

3

Don disposable fluid impermeable gown with assistance from PPE buddy.

4

Don procedure mask

5

Don disposable face shield

6

Don Head Covering

7

Clean hands

8

Don gloves over cuff

9

PPE buddy checks fit prior to room entry
